

Spraydome[®] 3049 Orchard Sprayer

For full width weed control in one pass

- *Tree line to tree line - up to 7.3 metres spray width*
- *Spray 8 hectares in 1.9 hours with 200 litre tank*
- *Effective weed control at only 25 litres per hectare*
- *Minimises spray drift—spray in wind*
- *4 years of testing in the US market*

ENVIROMIST
SIMPLY BETTER SPRAYERS

The Enviromist Spraydome[®] is simply unbeatable for efficiency, drift control and coverage.

Nothing can compete with the Enviromist advantages of effectiveness and cost savings.

- **Minimal spray drift - even on windy days**
- **Less filling - less non-productive travel**
- **No calibration**
- **CDA heads make chemical use more efficient**
- **For use with tractors and 4 wheel ATV's**
- **Simple and easy to use**
- **Units shown fitted with Spraydome[®] 1200's**

Adjust to minimum size for transport and storage

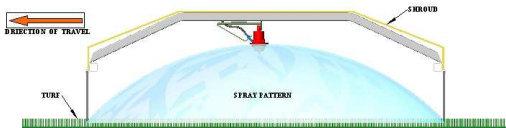

Adjust to correct width for spraying

Flow monitoring :
Each CDA head has individual flow monitor and light indicator

CDA SPRAY PATTERN

CDA technology : Controlled droplet applicator makes droplet formation more efficient, more effective.

Model	*Spray Width	Spray Speed	Total Flow Rate	Total weight
<i>Spraydome 3049</i>	<i>3.0 to 4.9m</i>	<i>4-10 kph</i>	<i>40-72 lph</i>	<i>204kg</i>
<i>Spraydome 1200</i>	<i>1.2m</i>	<i>4-10 kph</i>	<i>15-18 lph</i>	<i>26kg</i>

**Total spray width 7.3m when 2 x Spraydome 1200's used with full extension of Spraydome 3049.
Dry weight of unit shown—318kg*
